▪ Work Experience

- **Native Infotech**
  (March 2022 – Feb 2025)

  WordPress & PHP Developer
  Roles & Responsibilities:

  - Customize WordPress themes and plugins to create tailored, fully functional websites for clients.
  - Create and manage custom Gutenberg blocks using ACF
  - Work with WooCommerce for eCommerce functionality.
  - Implement REST API & AJAX for dynamic features.
  - Collaborate with designers and clients for project success.

  Work Summery:

  As a WordPress Developer, I specialize in developing custom themes using ACF fields, creating custom WordPress plugins based on client requirements, and modifying WooCommerce functionality to enhance user experience. I have also built a custom ACF Gutenberg block plugin, enabling dynamic and flexible content management. With expertise in PHP, WordPress hooks, and database management, I ensure high-performance, secure, and scalable web solutions.
